Hello Dr. Chang,

I have followed you with much appreciation for the wealth of info bestowed. My pulse taking has never been better and more informative to me since your classes. Your pulse techniques have given me new insights and greatly improved the precision of my formulas.

Regards,
C.S.

“Jimmy is not only the best herbalist I have ever seen or heard of, he may be the best ever. He is certainly someone who can stand with Zhang Zhong-Jing, Li Dong-Yuan and the rest of the best. It is a privilege to be alive at the same time.” J.G.
THEY ARE TAKING PULSE TOO???

NICK: Scary. And at that size, it couldn't have been fully grown.
"After attending Dr. Chang’s classes, there’s a giant leap in the learning curve that translates to better prescribing. My patients are happy and very grateful when they see results!!!" K.V.

"Always new pearls of wisdom. Thank you." K.V.
“This weekend was my first lotus seminar. It was great experience overall & I will definitely be doing more in the future.”

"Absolutely mind-blowing." J.G.

WHY DO WE NEED TO USE PULSE DIAGNOSIS?

1: Please check the attached file.

2: Help to understand the real reason that causes the discomfort behind the symptoms. To find the NATURE of the discomfort. (symptoms can be misleading!)
Finding out the real reason behind the symptoms.

- Patient directly tells you he has something. 
  For example:

  “Hey, Doc.. I have some low back pain”==

- Do we STILL need to take the pulse?
FOR EXAMPLE.....

CC==SUDDEN BACK PAIN........ At least there might be these reasons:
1. Fibromyalgia
2. MS
3. Fibroids
4. Osteoporosis
5. Cyst
6. Bone spur, disc herniation
7. Injury
8. Weak hormone
9. Kidney stone

BUT...
BACK, HIP INJURY, PAIN

AB PAIN, STASIS

INSOMNIA
BACK INJURY & PAIN

NECK INJURY & PAIN
